

# The “Best Turkey Ever” Recipe

---

## Ingredients:

- 1 turkey (10 to 12 lbs.)
  - Coarse kosher salt
  - 1 tablespoon black pepper
  - 1 lemon, zested and quartered
  - 1 bunch fresh thyme or rosemary
  - 1 bunch fresh sage
  - 12 garlic cloves, smashed and peeled
  - 12 oz apple cider
  - White wine vinegar, as needed
  - 2 onions, peeled and quartered
  - 3 bay leaves
  - Melted butter, as needed
- 

## Instructions:

1. Remove any giblets from the cavity and reserve for stock or gravy. Pat turkey and turkey neck dry with paper towel; rub turkey all over with 1/2 teaspoon salt per pound of turkey, the pepper and the lemon zest, including the neck. Transfer to a 2-gallon (or larger) resealable plastic bag. Tuck herbs and 6 garlic cloves inside bag. Seal and refrigerate on a small rimmed baking sheet (or wrapped in another bag) for at least 1 day and up to 3 days, turning the bird over every day (or after 12 hours if brining for only 1 day).
2. Remove turkey from bag and pat dry with paper towels. Place turkey, uncovered, back on the baking sheet. Return to the refrigerator for at least 4 hours and up to 12 hours to dry out the skin (this helps crisp it).
3. When you are ready to cook the turkey, remove it from the refrigerator and allow it to come to room temperature for one hour.
4. Heat oven to 450°F. In the bottom of a large roasting pan, add the cider and enough vinegar to fill the pan to a 1/4-inch depth. Add half the onions, remaining 6 garlic cloves and bay leaves. Stuff the remaining onion quarters and the lemon quarters into the turkey cavity. Brush the turkey skin generously with melted butter.
5. Place turkey, breast side up, on a roasting rack set inside the roasting pan. Transfer pan to the oven and roast 30 minutes. Cover breast with aluminum foil. Reduce oven temperature to 350°F and continue roasting until an instant-read thermometer inserted in the thickest part of a thigh reaches a temperature of 165°F, about 1 1/2 to 2 hours more. Transfer turkey to a cutting board to rest for 30 minutes before carving.
